The Prelt may kindly be perused.

The firm state that in the absence of any conditions attached to the sanctioning order of one ton of sandalwood supplied to them they are not legally bound to pay the difference with interest or take delivery of the remaining half a ton of wood appear to have been reserved for them. They are, however, ready to pay the difference in value less the interest but request that the matter may be kept pending till the next Board of Directors meets and also in November this year and also the general body in December 1953. They further state that the balance amount may then be adjusted from out of the sum of Rs 25,000/- they have paid to the Government being the land value and a portion of which will become repayable owing to the reduction in area of the land granted to them.

13 The CF reports that the company has so far paid only Rs 800/- against the ½ ton of Sandalwood remaining undelivered and recommends that we take back the sandalwood, as requested for by the Company, ~~at the rates at which~~ at the rates of our last Sales, i.e. @Rs. 3107-8-0 per ton. The CF states that the balance ~~of~~ with interest works out to Rs 864/31- and the cost of ½ ton @Rs 3107-8-0 per ton comes to Rs. 1553-12-0 and the amount of Rs 700/- due to the Company will be paid to the Company

14 It looks strange on what basis the CF has arrived at a figure in which we are only losing difference of Rs 605/12- and the interest that accrues on the balance

amount of Rs 2159-8-0 since 16-7-51 but also will be due to the Company to an extent of Rs 700/- The position should be as follows

Debit

		Rs.
(1)	The cost of ½ ton of Sandal wood @ Rs 4,3191- per ton	2159-8-0
(2)	Interest ~~(accounts to the calculation up to date)~~ @ 6¼% for Rs 2159/8/- from 16-7-51 to 24-11-53	341-5-0
	Interest for Rs 1959-8-0 from 25-11-53 to 15-2-54 (15-2-54 probably date of order)	23-1-0
	Total int	364-6-0
	Total debit due	2523-14-0

Credit

1)	Cost of ½ ton of Sandal wood @ Rs 3107-8-0	1553-12-0
2)	By Cash	200-0-0
	Total	1753-12-0
	Diff	770-2-0

The Company purchased the wood at the rate of Rs 4319/- and paid half of the amount. Now the balance is Rs 2159-8-0 and interest accrues on it till 15-2-54.

~~[illegible]~~

(the probable date of ordering) comes to Rs 364-6-0 (according to C.F. the figure is Rs 362-9-0) Hence the total due is Rs 2523-14-0. Out of this an amount of Rs 1553-12-0 being the cost of ½ ton of wood @ the present rate of Rs 3107-8-0 ton and the cash paid amounting to Rs 200/- to be debited to the Company is due to Govt. Stic an amount of Rs 770-2-0

16 It is not known how the C.F. arrives at this figure and why he has furnished such a wrong and misleading statement of accounts

17 In the circumstances it is for consideration whether the dealing may be closed by confiscating the wood and waiving the recovery of the difference in value of Rs 605-12-0 and interest of 164-4-0 (the cash of Rs 200/- paid may be credited against the interest amt) after intimating the decision of the Govt. to the Party in view of the unsecured financial position of the Company

Submitted. On further examination of the contents of Rec the actual request of the CF is thrashed out and the position is as under :-

The company is requesting the CF. to take back the ½ ton of sandalwood it took delivery on payment of Rs 2,159-8-0 out of the total quantity of 1 ton at the existing market rate and to adjust the amount due to Government in respect

of the other half a ton which has not been taken delivery of and wherein is the subject at issue. By taking back the ½ ton wood, with the Company at present at the current market rate the Government has to pay Rs 1553-12-0. The Company is due to the Government inspect of second half of the wood a sum of Rs 701/10/- as difference in Value and interest upto 23-11-53 on Rs. 2377/- Rs. 341-5-0, and from 24-11-53 to 18-1-54 on Rs 2177/- (as the Company paid Rs 2200/- on 23-11-53 to the Government) Rs. 23-1-0, thus a total amount of 1,066/- Out of this amount the Company has paid Rs 200/- on 23-11-54 and thus the actual balance is reduced to Rs 866/- The amount that will become payable to the Company after taking the complete quantity of wood and after all adjustments is Rs 687/12/-. It is this amount (but the C.E. has calculated this amount has Rs 700/- which appears to be incorrect) the C.E. states as due to the Company. The C.E's letter is not clear but comparing and well understood and thus he presumably.

As the proposal of the C.E. has already been accepted by the Government a suitable draft is put up for appl

No. 888/53

Date 10th October 53.

To

The Chief Secretary,

Government of Coorg,

Mercara.

Dear Sir,

Please refer to your letter No. B.10095-96/B. 3-86/534 dated 22-9-53 requiring payment for half ~~a~~ ton of Sandal Wood alleged to be reserved for us or pay the difference in value etc.,.

As stated by us several times previously we had not bargained for or agreed to pay any interest or the difference in price, if we did not pay for and obtain the half ton of Sandal Wood. It is clear from the records that we wanted one ton of Sandal Wood for experimental purposes and not for commercial profit making and later we restricted ourselves to only half ton. To insist on our purchasing the other half ton also or pay difference in price as also claiming interest ~~i~~ are not agreed conditions. We were not aware even of the possibility of such claims being made against us. It may be usual in tender or ~~auxti~~ auction purchases of Sandal Wood to stipulate such conditions and terms and have undertakings in writing. Ours was a casual grant and no terms and conditions were stipulated much less agreed to. Under these circumstances we feel that legally we are entitled to repudiate the claim for any payment.

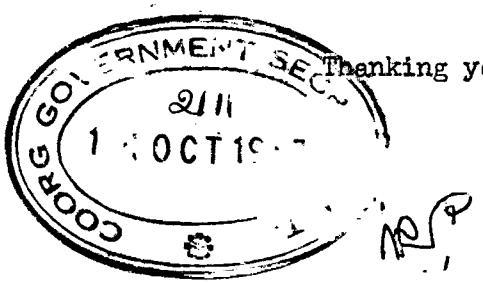
(P.T.O.)

(Contd.) .....

Yet, as has been expressed previously by us, it is not our desire to enter into an issue against the Government and we are prepared to pay the difference in price but not the interest. There is also every liklihood of our purchasing the Wood paying full price when our present almost complete negotiation with a financier to work up the Sandal Oil factory, is finalised. The details of the reconstruction scheme are being worked up and a meeting of the Board of Directors is arranged to be held by the end of November to finally decide the proposals with the aid of the financier. The matter will be followed up by a General body meeting to be held in December 1953. If the reconstruction is approved we shall readily pay the full price and take the wood in question. There will also be then further proposals to Government for purchae of their entire Sandal output with sufficient security for completing the purchases. If on the other hand our efforts fail, you may without further reference to us adjust the amount of difference in price from out of the sum of Rs.25,000/- we have paid to Government in respect of land and timber, a portion of which amount will become repayable to us owing to the reduction in extent of the land granted.

Our only and final appeal to you, now, is to kindly keep the matter pending till end of December 1953, when the account will be closed either way as above stated. We are grateful to you for the indulgence shown so far and hope that our request will meet with your sympathetic approval.

Thanking you,



Yours faithfully,

Sub:- Sale of Sandalwood to the Cauvery Paper Mills -
recovery of amounts due -

Ref:- Your letter No.A-4-24465 Forests.8/50
dated 22-12-1953 -

Sir,

The Cauvery Paper Mills and Forest Industries Ltd. have paid Rs.(200/-) Two hundred only so far. Now the Secretary of the Company in his letter No.968/54 dated 11-1-1954 (Copy enclosed) requests that the Sandalwood purchased during 1951 may be taken back at the rate realised for that class of sandalwood at the last sale, and the amount due from them adjusted and the balance paid back to them.

2. The Company purchased half a ton of Ghatbedla at Rs.4319/- per ton paying Rs.2159-8-0 in the year 1951. The average rate realised at the sandalwood sale held on 21-12-1953 is Rs.3107-8-0 per ton of Ghatbedla. The value of half a ton of Ghatbedla works out to Rs.1553-12-0.

3. In letter No.B.10095-96/B.3.Fr.6/53-4 dated 22-9-1953 from the Chief Secretary to the Government of Coorg to the Company a copy of which was sent to this office, the Company was given two alternatives, i.e., either to pay the value of half a ton at the agreed rate with interest and to take delivery of the wood or to pay the difference in value together with interest.

4. Now that the Company wants to return even the wood taken previously, the difference with interest has to be recovered. as stated in the letter mentioned above. The balance of this with interest

PTO

works out to Rs.864-3-0 as could be seen from the statement enclosed.

5. The Company is not sound financially and therefore it seems best to close their accounts by taking back the wood and adjusting the amount due.

6. If Government approves of the idea I will take back the sandalwood, get it weighted and after recovery of the sum of Rs.864-3-0 due from them, pay them about Rs.700/- which will become payable to them.

7. It is not desirable to allow them to dispose of the sandalwood in ~~the~~ open market in Coorg.

8. Hence I.recommend we take over the half a ton with them at the current market rate and close all our transaction.

9. I request instructions.

Yours faithfully,

As represented personally before you, we hereby request you to take back from us the half ton of Ghatbadla Sandal wood which we purchased from you in the year 1951, and which we have not used so far. The quantity may be weighted and taken and cost at the recent auction price (which we understand is Rs.3107/- per ton) may be paid to us. Out of this Rs.681-12-0 due by us may be adjusted and payment of the balance amount only made to us.

On hearing from you, our representative at Fraserpet will deliver the wood to whomsoever you suggest. In view of the above, orders may kindly be issued immediately to the Revenue authorities withdrawing the attachment proceedings.

To,

The Chief Secretary to Government of Coorg,

M E R C A R A

Dear Sir,

Recovery of Sandalwood dues

We draw your kind attention to the previous correspondence in the above matter, wherein in respect of half a ton of sandalwood which we did not purchase, we had been asked to pay either the full value of Rs 2870-11-0 and receive the wood or pay the difference in price amounting to Rs 881-12-0 and give up the wood. We elected the latter and had requested the Government to adjust this sum of Rs 881-12-0 from the value of land refundable to us on reducing the extent of land granted.

However since the Conservator of Forests suggested that we should pay this sum of Rs 881-12-0 in cash, we paid Rs 200/- towards this and requested for time for payment of the balance. On account of our financial difficulty and other unavoidable payments, we could not pay the balance of Rs 681-12-0 due by us. We requested the Conservator of Forests to allow us to sell the half ton of sandalwood which we had previously paid for and obtained or to arrange for the same to be purchased by the Goverment itself and its present cost paid to us after deducting therefrom the sum of Rs 681-12-0 due by us. The Cosrvator of Forests agreed for the purchase by the Government and we also gave an application in this behalf.

In the meanwhile attachment of our property to recover a sum of Rs 2870-11-0 has been ordered and the Parupattegar, Fraserpet is

P.T.O.

pressing for recovery. While the ~~xxxxxxxx~~ arrangement of purchase of half ton of sandalwood by the Government and adjusting ~~xx~~ from its cost the sum of Rs. 681-12-0 due by us, agreed to by the Conservator of Forests is pending Government approval, it is unjust that we should be harassed by proceeding with the attachment for Rs. 2870-11-0, not even deducting the sum of Rs. 200/- paid by us and received by Government against the sandalwood dues.

We had also given an application to the Assistant Commissioner for ~~xxxxxxxxxx~~ adjustment of this sum of Rs. 681-12-0 from the value of the ~~xxxx~~ land extent reduced in grant.

When the adjustment of the dues in either of the above ways is just and possible we submit that we should not be harassed with an attachment order.

We therefore pray that immediate orders staying the attachment ~~xx~~ interim may kindly be passed and communicated to the Parupattegar Fraserpet pending final orders regarding purchase of sandalwood from us and adjustment of dues or an adjustment from the value of lands extent reduced.

Thanking you,

Sir,

The Government have accepted your proposal to take back the ½ ton of Ghat-badlu which the Company took delivery on payment ~~of Rs~~ in 1951 at the Rate, realised in the last auction Sales, i.e., Rs 3107-8-0 and after adjusting the difference in value of the other half a ton of wood still remaining under the custody of your department and the interest accrued on the cost of the balance quantity, i.e., Rs 2377/-

Sir,

The amount due by the above company to this department towards the sale of sandalwood was Rs.1072-7-0 as per the statement enclosed.

Out of this amount a sum of Rs.200/- was recovered and credited under letter of advice No.9027 dated 17-11-53 and Treasury receipt No.392 dated 24-11-53. The balance amount of Rs.872-7-0 was adjusted out of the amount of Rs.1373-6-0 due to the company towards the cost of tons 0-8-3-10 of sandalwood returned by them to this department at Rs.3107-8-0 per ton and the balance of Rs.500-15-0 only was paid to the company by cheque on 24-5-54.
